Dear Sir or Madam,I am a consumer of satellite radio services and highly benefit from listening to XM Satellite Radio and its traffic and weather channels. As a bluegrass musician performing in the Southeast I rely on satellite radio music and information which I cannot find or receive elsewhere. I am willing to pay for these services, and feel stongtly that the National Association of Broadcasters does not have the right to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming I rely upon and deserve.

Sincerely,  
Lynda W. Dawson
